The relationship between education and employment is central to the evaluation of an employment-based field placement application. The employment-based field placement application must demonstrate that educational time will be protected and that the educational and learning objectives of the fieldwork will be accomplished within the perimeters of Field Education policies and requirements.

If a student wishes to request a field placement in an agency in which he/she will be simultaneously employed, the following requirements listed below must be met. Signatures indicate that all parties have read and understood all stated policies, and requirements. All inquiries regarding employment-based field placement proposals should be directed to the Director of Field Education.

**Requirements**

1. The agency must be approved by the Director of Field Education. All required paperwork as well as a site visit must be completed prior to the start date of the field placement.

2. The field instructor must have a M.S.W. degree

3. The student’s field placement must be in a different program than the program where they are employed in the agency.

4. The student’s field instructor and employment supervisor must be different people.

5. The student’s employment hours and field hours must be clearly defined and delineated.

6. The student must have been employed by the agency for a minimum of 60-days prior to submitting an employment-based field placement proposal.

7. Students must have the same number of field hours in an employment-based field placement as in a non-employment-based field placement.

8. The focus of the field placement must be on meeting the student’s learning and educational objectives. Learning opportunities need to exceed present job skills and knowledge.

9. The agency director or chief executive officer must sign off on all employment-based field placement proposals. It is the agency’s decision as to what type of compensation the student receives while in placement.
